Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1651

Status of the Claims

Claims 1-51 have been presented for examination.

Election/Restrictions

Applicant's election of group I, claims 1-24, species (a) cells or tissue, and species (b) immune stimulating agent, in Paper No. 7, filed 11 March 2003 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4-5 and 12-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4-5 recite that the molecules include solvent separable material which does not make sense. Perhaps it is intended that the molecules are contained in a solvent that is separable from the molecules. However, the molecules themselves cannot contain solvent.

Claims 12-14 recite the limitation "electrode releasable material" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 1651

Other references cited by examiner but not relied upon are cited to establish the state of the art.

While the cited references establish that it is known in the art to use electroporation to introduce therapeutic molecules into cells, none of the relied upon references teaches coating the electrodes electrostatically with the therapeutic agent.

Claims 1-3,6-11 and 15-24 are allowed.
